BRIDGE RECTIFIERS

Diodes & Bridge rectifiers

Fagor Electronica offers a wide variety of diodes, covering different ranges of power and voltages both in axial, radial as well as in SMD. To meet our customers demand we manufacture anything from rectifier, fast and ultrafast to schottky, TVS, zener and bridge rectifier. We are committed to manufacturing a diode solution for any demand from the market.

General Purpose Rectifiers

FAGOR ELECTRONICA SEMICONDUCTORS

Fagor Electronica has been manufacturing electronic components since 1966. Our headquarters is based in the Basque city of Mondragon in Spain, with an additional production plant in Chachoengsao near Bangkok in Thailand. We employ over 500 people in both plants. We also form part of the Mondragon Corporation, the seventh largest business association in Spain and a major reference point for cooperativism in the world.

The semiconductor business unit exports over 96% of its production across the globe. Fagor Electronica has an extensive network of sales offices and agents to support and sustain our customer relationships. We are dedicated to manufacturing a solution for all our customers. For that matter we are considered a benchmark company for business sectors like lighting, power supply, white goods, house hold appliances and automotive.
